PROFESSIONAL SUMMARY

Software Engineer with 5+ years of experience and an MSc in Data Science, combining strong full-stack development expertise with machine learning knowledge. Skilled in building scalable web and mobile applications using modern JavaScript frameworks and Python-based data tools. Experienced in developing user-focused solutions, integrating APIs, and applying data-driven techniques to solve real-world problems. Seeking opportunities in Software Engineering or Machine Learning roles in the UK.

TECHNICAL SKILLS

Programming: Python, JavaScript, TypeScript, SQL

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, React Native

Data Science & ML: Pandas, NumPy, Scikit-learn, TensorFlow

Databases: MongoDB, MySQL, Firebase

Tools & Platforms: AWS, Docker, Git, GitHub, Bitbucket, Prisma

Data Visualisation: Power BI, Tableau, Matplotlib, Seaborn, Excel

PROFESSIONAL EXPERIENCE

Web Developer | Creative Networks

May 2025 – Mar 2026

- Developed responsive web applications using React.js, Next.js, and Node.js
- Built and integrated RESTful APIs using Express.js and MongoDB
- Collaborated with cross-functional teams to deliver scalable and user-friendly solutions
- Improved application performance and usability through optimisation techniques

Software Engineer | Enxsys

Jan 2023 – Jan 2024

- Developed a sports venue booking mobile application using React Native
- Implemented real-time chat and authentication using Firebase

- Integrated Stripe for secure payment processing
- Designed booking and scheduling systems with real-time availability
- Utilised Algolia search for fast and efficient data retrieval

Software Engineer | Walqalum

Feb 2021 – Jan 2023

- Built cross-platform mobile applications using React Native
 - Implemented features including localisation (i18n), deep linking, and social logins
 - Developed real-time tracking applications using Google Maps APIs
 - Created and deployed barcode scanning solutions for logistics operations
 - Built backend APIs using Node.js and Express.js
 - Deployed applications to Google Play Store and Apple App Store
-

EDUCATION

MSc Data Science

London South Bank University | *Jan 2024 – May 2025*

- Focus on machine learning, data mining, and statistical analysis
- Experience with model evaluation, data preprocessing, and predictive modelling
- Tools: Python, SQL, Power BI, Tableau

BSc Software Engineering

COMSATS University | *Feb 2017 – Jan 2021*

- Developed full-stack applications using MERN stack
 - Final Year Project focused on scalable web application development
-

CERTIFICATIONS

- Python AI & Machine Learning Bootcamp – London South Bank University (2025)
-

ADDITIONAL INFORMATION

- Full right to work in the UK
 - Available for immediate start
 - Strong communication, teamwork, and problem-solving skills
-
